Objective

To gain valuable hands-on experience and professional skills in an organization providing a challenging, learning, and dynamic environment in order to utilize my technical knowledge and skills to effectively contribute to the organizational goals and objectives.

Professional summary

Motivated Software Engineering student with a solid foundation in web and mobile development, currently pursuing the ACCP Prime diploma and an Associate Degree in Commerce. Skilled in frontend and back-end technologies including React.js, Flutter, PHP, ASP.NET, MySQL, JavaScript, and UI/UX design with Figma. Also experienced in video editing using CapCut, creating engaging content for YouTube, Instagram, and Facebook. Quick learner with strong problem-solving skills, eager to apply technical knowledge in a dynamic work environment.

Professional Experience

Web Developer Intern at (NEXTGEN LEARNERS)

July – Aug 2025

- Collaborated with the development team to design and build responsive websites using HTML, CSS, and JavaScript, focusing on user-friendly interfaces.
- Contributed to front-end development tasks including layout design, interactive features, and ensuring cross-browser and mobile compatibility.
- Implemented SEO strategies & best practices to enhance website visibility & search engine ranking.
- Assisted in optimizing website performance by minimizing load times, debugging UI issues, and refining page responsiveness.
- Gained hands-on experience working on real-world projects, enhancing both technical skills and understanding of the web development workflow in a professional setting.

Software Development Intern at (DEVELOPER'S HUB CORPORATION)

Aug – Sep 2025

- Participated in a 6-week remote internship program focused on real-world software development practices and team collaboration.
- Assisted in designing, coding, and testing software applications using industry-standard tools and technologies.
- Worked under the guidance of a team leader to complete project-based tasks in an agile development environment.
- Engaged in debugging, troubleshooting, and refining application performance for improved functionality.
- Gained exposure to version control systems, development workflows, and received formal documents including offer letter, completion certificate, & LinkedIn profile optimization support.
